Dear Rick,

The hail rolled into town this summer and did extensive damage at two of our restaurants. At first, we thought all our needs regarding our claim would be met by the insurance carrier. We soon learned that "their adjusters" were not really on our side.

Our one location was shut down. We were trying to stay in business and understand how to best handle vague issues related to the policy and our lease. Your ability to analyze the pertinent items and present them to the carrier was key to our claim recovery.

Please stop in for a meal from time to time. We consider you and Adjusters International to be an important resource in our business community and we'd like to keep in contact.

Thank you for all that you've done to assist Davie's Chuck Wagon.

Sincerely,

  
Dwayne Clark  
Owner
